CALL FOR PAPERS

The tenth International Conference on Image Processing Theory, Tools and Applications IPTA 2020 aims at gathering international researchers, innovators, educators, and practitioners in image processing for attending extensive educational high level materials, sharing their achievements, exchanging their experiences and discussing future orientations. The conference aims to provide an excellent forum to meet and discuss various important issues on image processing and applications. Topics include but are not limited to:

- Image formation, scanning, display and printing
- Image and video processing, coding and compression
- Machine learning methods for image and video analysis
- Pattern recognition and computer vision
- Perceptual analysis of images and video
- Image forensics and security
- Applications of image and video analysis
